Mark Hanna is making it somewhat
wary for the Popocrat campaign here

A Populist election in Georgia has re-
sulted in some out for McKinley. Com-
bined street and Wall street have probably
got a clinch on that top

William R. Morrison of Illinois has
publicly repudiated the Democratic plat-
form including Bryan and Alford who
serve as penitentiaries for that document

The Budget Chairman Jones makes his
figure for Bryan the lower the price of
silver goes. Considering the promises
Bryan makes for silver this does not look
reasonable but it is a cold fact none the
less

If Alford believes free coinage of silver
will double the price of silver and believes
that Bryan will be elected he ought to
buy silver bullion at its present low price
and sell it when it reaches the price of
\$1.29 cents an ounce and pay off the mort-
gage on the Unity Block. This would be
a good way to observe the requirements
of gold clauses in his loans

The United States postoffice department
has stopped distributing mail for the
fraudulent Foreythe in New York a char-
acter in a Popocrat campaign. Over
two barrels of mail addressed to the any-
thing from dups who have written letters now
lies in the New York office. This is prob-
ably a part of Bryan's cross of gold and
crowd of thorns he is pressing upon the
brow of the New York postoffice clerks
in New York

It has been reported that the Popocrats
as a take off on the yellow so no money
badges intend to wear yellow badges with
the words McKinley Sit planted
thereon. We advise them not to commit
that blunder as so many people have so
little faith in the accuracy of Popocrat
orthography they would be likely to jump
at the conclusion that the last word was
printed backwards and that they really in-
tended the ribbon to read McKinley
Sit Bryan, himself, being a sort of
rear end curiosity might get that impres-
sion and bring a free trader might take
offense at it and injure the business of
the town

Would Help Trade
It is reported that "Billy" Mason is to
follow "Billy" Bryan through Decatur
if that proves true the Review ought to
rejoice over it inasmuch as that paper has
shown so much interest in the business of
the city, for Mason would draw some
trade as well as Bryan. In that case we
would not be at all surprised if upon
that theory the Review would advocate a
division of the funds collected for Bryan
for the sake of bringing a crowd to town
to get the trade, to help defray Mason's
expenses

"We hold to the use of both gold and silver as the standard money
of the country, and to the coinage of both gold and silver without
discriminating against either metal or charge for minting, but the dol-
lar unit of coinage of both metals must be of equal intrinsic and ex-
changeable value, or be adjusted through INTERNATIONAL AGREEMENT
or by such safeguards of legislation as shall insure the main-
tenance of the PARITY OF THE TWO METALS and the equal power
of every dollar at all times in the markets and in the payment of
debts; and we demand that all paper currency shall be kept at par
with and redeemable in such coin. WE INSIST UPON THIS POLICY
AS ESPECIALLY NECESSARY FOR THE PROTECTION OF THE
FARMERS AND LABORING CLASSES, THE FIRST AND MOST
DEFENCELESS VICTIMS OF UNSTABLE MONEY AND A FLUC-
TUATING CURRENCY." Financial Plank National Democratic
Platform. Adopted at Chicago June 22, 1892.

Edward C. Akin

One of the bravest, clearest and ablest
attorneys in Illinois is Edward C. Akin.
He is a candidate for attorney general. He is a
native Illinoisan born in Will county in
1842 and was educated in the public
schools of Joliet and at Ann Arbor, Mich-
igan. For four years he was paying and
receiving toll in the first National bank
of Joliet. He was admitted to the bar in
1878 and has continued in active practice
ever since. He began his political career
in 1887 when he was nominated as the
Republican candidate for city attorney of
Joliet and although the city was at that
time from \$500 to \$1000 Democratic he was
elected by a majority of 715.

In 1888 he was nominated for state at-
torney of Will county and at the ensuing
election led the entire state and county
ticket by 800 votes. In 1892 he was re-
nominated for that office and again led
his ticket by hundreds of votes and is
credited by the leaders of both political
parties with having saved the county tick-
et from defeat. His most brilliant polit-
ical victory was achieved in 1895 when
he ran as the Republican candidate for
mayor of the city of Joliet. Although op-
posed by a citizens ticket led by a Republi-
can he defeated the Democratic nomi-
nee by a majority of 200 votes, re-
ceiving nearly as many votes as both his
opponents combined. As a lawyer he
stands among the leaders at the northern
Illinois bar. As a public prosecutor he
has no superior in the state and his conduct
of municipal affairs has won for him the
admiration of all good citizens, regardless
of party affiliations. He is a man of high
character and sterling integrity and al-
though he has been prominently before
the people of his county for the past ten
years no breath of suspicion has ever been
cast upon his private life or official acts.
He will make a good attorney general for
which position he is qualified by education
and experience.

Sell Bryan Some Silver.

Our Popocrat campaigners are claim-
ing the election of Bryan to the presidency
on the free silver issue. They also claim
that when Bryan and a silverite congress
enact a law opening the mints to the free
coinage of silver that commodity will at
once appreciate in value so as to reach a
parity with gold at the ratio of 16 to 1.
On this line of reasoning silver bullion
ought to be advancing in price now in-
stead of falling as it is doing. If Bryan
is elected and his followers be-
lieve it and that it will advance the price of
bullion from 65 cents an ounce to \$1.29 an
ounce they ought to be investing in silver
bullion. They could not make money any
faster. Take an example. Suppose that
a silverite were to invest \$100,000 in sil-
ver bullion at the present price and all the
things promised for silver were to follow.
Bryan's election he would double his
money inside of six months and the in-
vestment would thus net him 100 per
cent. No man ought to desire to make
money more rapidly than that and it
would be much easier than to wait until
he is elected and as one of the seventy
million of people go and get bullion and
have it coined as Bryan said all could do
after the mints were opened to the free
coinage of silver. It would be easier for
Bryan himself, and much more profitable.
He seems to want money like the balance
of mankind and if he believes what he
says about the effect of the election on the
silver of the world he ought, and it would
be legitimate for him to buy silver bul-
lion at the present low price a price which
all his speculators and predictions as to the
future of silver bullion have failed to ad-
vance. If he were to buy bullion
instead of making promises regard-
ing it that not would beat all the Bryan's
logic that has been dealt out for two
months from the rear of a train. He
would in that way show his "faith" in his
works but as neither he nor his cam-
paigners are investing in silver bullion we
are left to infer that they do not believe
what they are telling the people. In this
respect Bryan and his campaigners are
like Wall street and Lombard street.
They don't want any investment in silver
bullion with all that Bryan promises for
it and neither does Bryan nor any other
free silver seizer in the country. In view
of this it is not at all strange that so
many thinking people and all the leading
newspapers of the country and the entire
business army of the Republic repudiate
the whole scheme as a fraud and a dream
in which if successful would sink the coun-
try into ruin and bankruptcy. Bryan and
his campaigners either know that free
coinage would not advance the price of
silver bullion or else have no faith in his
election and in either case they had better
take down their banner or buy bullion.

WANTED—Work by millions of un-
employed Americans, thrown out
of employment by millions of work-
men in other countries, whose prod-
uct comes here under the Wilson
bill, and who buy what they eat from
farmers from their own countries,
and what they wear and use in fur-
nishing their homes from foreign
merchants. These American work-
men are out of work, and many of
them out of money, too. With the
McKinley times of 1892 back again,
employment is guaranteed. But they
want work now, and want it badly.
Payment in any money of the United
States government today, silver,
paper, or gold, 100 cents to every dol-
lar, will be entirely satisfactory.

AMERICA FOR AMERICANS.

The Issue Simple But Important.
Editor Republican As we hear the
close of our political strife we see little
efforts made on all sides having a tend-
ency to lawlessness and disorder, which it
is well to guard against sooner than to
pounce. We are passing through process
of political purification and investigation
which will be for our good and upbuilding
as a nation if we pass the searching criti-
cism with an unshaken record.

The issues although looking so great
at first are after all very small, and solve
themselves by the following question:
Is it not better as Americans to protect our
own people and home manufacturers which
give bread to our children and price to
our farmers than to pay tribute to for-
eign countries to buy our product and
cheat our own people out of a living? A
word to the wise is sufficient. Also is it
not better to have money that will pass
current unquestioned as to value for all
needs and purposes than an experiment
money? The best is always the cheapest.

The silver party claims at times that we
have a 300 cent dollar and again that we
have a 75 cent dollar, both are right, our
dollar will buy as much now as two did
in 1891 but the most of the product is
from foreign countries and not as good as
our own people could produce for the
same or less money, so we gain nothing
by the large dollar. Again our 51 cent
dollar is the exchange part in trade or
commerce and the cheapness of the silver
dollar allows us to use the balance of sil-
ver bullion which a silver dollar buys
which is 47 cents to pay government
debts. Still the government and the
people accept the 51 cent dollar which are
the standard dollars at their face value
the government issued those dollars in
payment of claims against it to the people
and receive the same dollar back from
the people so no one loses anything ex-
cept the free coinage mine owner. Our
government is still honest in all its con-
tracts. Last but not least, is it not bet-
ter to trust a party to make and ex-
ecute our laws, who have always been first last and
always, for America and our people than
to try another experiment with a new
party who have not even a name in
American history. I am deeply interested
in the success of the Republican party as
I have a farm bought and paid for while
they were in power and I know the coun-
try is safe in their hands by long years of
successful service. A Tax Payer

The readers of this paper will be pleased
to learn that there is at least one dreaded
disease that science has been able to cure
in all its stages, and that is Catarrh.
Hall's Catarrh Cure is the only positive
cure known to the medical fraternity.
Catarrh being a constitutional disease, re-
quires a constitutional treatment. Hall's
Catarrh Cure is taken internally, acting
directly upon the blood and mucous sur-
faces of the system, thereby destroying the
foundation of the disease, and giving the
patient strength by building up the consti-
tution and assisting nature in doing its
work. The proprietors have so much
faith in its curative powers, that they
offer One Hundred Dollars for any case
that it fails to cure. Send for list of
testimonials.

AT THE ALTAR.

Happy Marriage of Mr. Robert Mueller and Miss Adalene Ebert.

Robert Mueller and Miss Adalene Ebert were united in marriage last evening at 7:30 o'clock at the home of the bride's parents, Mr. and Mrs. J. F. Ebert, No. 261 Central avenue, in the presence of about fifty relatives and friends. It was a green and white wedding, white flowers and tropical plants being used for decorations in the parlor and the same colors prevailing in the dining room.

The officiating clergyman was Dr. W. H. Penhallegon of the First Presbyterian church. There were no attendants. The bride was given in white satin, with plaited white chiffon trimmings, and of white silk and carried a bunch of white roses. The music was by the College Hill Mandolin orchestra. It was a very pretty marriage. Congratulations were cordial and everybody was happy. The bride received a large number of handsome and useful gifts. The wedding request, which was delicious and abundant, was served in courses by Mrs. Gharrett.

Mr. Mueller and bride left last night for New York. They will return home before Nov. 3. They will occupy a handsomely furnished residence at 805 West North street.

The bride was attired in white Paris muslin, trimmed in white lace and ribbons and carried a bunch of white roses. They left at midnight for St. Louis and will be at home to their friends at 311 N. Mill street in a few days. They received many handsome presents. Those present from out of town were Miss Beale from Warrumburg, Miss Spear of Orona and Mrs. Lena Keith of Shelbyville.

THE BRYAN RECEPTION.

Friday, Oct. 23, is the Date—Local Papers' Arrangements for the Event.

In former issues the Republican has announced that Candidate Bryan would pay Decatur a brief visit on Friday, Oct. 23, arriving on a special train at about 12:30 o'clock p. m. There has been no change in the date or hour. No one knows definitely at this writing that Bryan and his party will arrive promptly on time, and none can tell just how long the free silver 16 to 1 champion will stay within our gates after he crosses the Central bridge.

The special train bearing the party will come in over the Peoria, Decatur and Evansville road from Sullivan. The plan for the appearance of Mr. Bryan is that he will speak in Central Park and also from the balcony at the St. Nicholas hotel.

The railroads give special rates.

Miss Virginia Knauff, daughter of Mr. and Mrs. A. S. Knauff of North Edward street, this city, and Dr. J. F. Fribble, the popular dentist, both residents of Decatur, were united in marriage at St. Louis yesterday. News of the wedding came last night in a telegram to the parents. It was known to them that the Doctor and their daughter were to be married but they supposed that the wedding would occur at their residence within a month. Partial arrangements for the event had been made. But it appears that the young people had quickly planned to surprise the old folks and they carried it out. Miss Knauff had gone to St. Louis to visit her aunt, Mrs. Hubbard, on Cook avenue, and Dr. Fribble left for that city early yesterday morning. The couple first met at Pana about nine years ago. They will make Decatur their home, and on their return both will be cordially received by Mr. and Mrs. Knauff and all their many friends.

OBSCURE MILLIONAIRES.

Owners of Wealth Who Know Nothing of Its Intelligent Use.

The London Spectator once published a list of those it called "obscure millionaires" who had died within the previous ten years. The list was a rather long one. This list sets one considering. The age is a shopkeeping age, it is true. It is apt, we say, to value men according to their property. Great wealth gives great consideration, and yet, notwithstanding the exaggerated importance of money and money getting, it appears that wealth in the largest measure redeems no man from obscurity; that money in itself, by its mere possession, confers no distinction which even this age values. Its use, and not its possession, is all that can make it a matter of distinction. In our own country, even more than in Europe, wealth exaggerates its own consequence. It is natural that it should, for here, more than there, it is a personal matter. The American millionaire has "made," as he says, his own shrewdness, industry (fact, perseverance or "good luck." He is fond, it may be, of reminding us all that it is so. He is a "self-made man," and recurs to the time when he was a barefoot boy, or a penniless youth, with some pride, as a proof of how bright a man he is in having changed by his own unaided powers the early poverty for the present wealth.

He feels in his heart he has done a noble work, and that he deserves the commendation of mankind for doing it. He is liable to disappointment, as we all know, and it is somewhat strange that, shrewd as he is in money matters, he is so blind in others. For the rest of the world is very busy, and has little time to trouble itself about his success or his failure. Neither can other people see on exactly what grounds a man can claim its applause only for having taken good care of his own interests.

The consideration given to him for his money is given only to his face by those who expect to get something by it. The community would look complacently upon the matter if a sudden revolution should set him to sweeping the streets to-morrow, would consider him, indeed, quite as important in the last occupation as in that of raking his hoards higher. In other words, it is the wealth itself that is important, if there is any importance in the case. The man who owns it may be very unimportant. In fact, if he is content to be merely its owner, is sure to be so.

The only way to create distinction with wealth is by the use. What a man does with what he has determines the question of his obscurity. The world is very just, and forgets all but its benefactors. The millionaire who uses his millions for his own benefit is like the office-holder who uses his office for his own benefit, or the man of genius who exhausts his genius for his own selfish ends, or, indeed, like any man who, endowed with a trust, uses the trust for his own exclusive use and behoof.

Men possessed of other trusts are not apt to make this mistake as the men possessed of money. Genius, intellectual power, high spiritual gifts, we are all loath to claim are conferred for the good of humanity. We stand ready to condemn relentlessly the men who endowed with such gifts use them mainly for their own advantage. But great wealth, especially if a man has himself won it, is less apt to be considered a trust. The greed for it is great. It is often sought not for itself, but for the supposed distinction it confers. When the young man of energy and ambition looks forward to the attainment of it as the end of his endeavors, he is not led by any miserly desire for money in itself. He has rather the nobler desire of winning distinction and importance by its possession. It is a means, and not an end. Pity he should in the years of his pursuit so often change his notion. For his first opinion is right. Wealth can confer distinction. It can bring honor and high consideration. It can make a man's memory fragrant with blessings for centuries. But to do all this it must be used.

There are millionaires in our own country who will neither be remembered nor cared for 30 days after their costly funerals. Their passage from among living men will leave no void, for the stocks and bonds and shares which alone gave them their consequence remain. Mankind has lost nothing, misses nothing. There are others who will be missed in a thousand places and by thousands of hearts, for though the millions remain, the heart that made the millions a blessing is gone. The man in this case is lost to us, and he was more than his money. There are again some few who so dispose of their thousands that their names and memories are linked for years, for centuries, to the monuments of beneficence they leave behind them, famous the land over, not for their wealth, but for the good deeds for their wealth was used for. The millionaire is nothing, his importance nothing, his consequence nothing. We want to know what he does with his millions before we care to remember his name. As a millionaire merely, he is like the great poet who never writes, the great orator who has never made a speech, the great inventor who has never invented anything. He had grand opportunities. He could have done so much with his money. He did nothing. That is all. We stand by his grave, and think "what a fool he was!" Another "obscure millionaire."—Philadelphia Church Standard.

Distinguished Marksmen.

"Brown is a good shot, isn't he?"
"Very good. We were practising with our rock rifles at my country place the other day, and he hit the bulls-eye the first time."
"Very clever."
"Yes, but he had to pay for the bull."
—Sketch.

About 300 species of turtles and tortoises are known. Some of these attain a very large size.

FOREIGN GOSSIP.

—Three hundred convicted murderers were sent to the penal settlement on the island of Saghallen on one steamer that left Odessa recently.

—Princess Dhuleep Singh was fined 12 shillings in the Burton-Upon-Trent (England) police court for taking her lapdog to drive in her carriage without having it muzzled.

—The late duke of Marlborough, in alluding to the size of Blenheim palace, used to say, by way of a joke, that it was the only residence in England which required \$4,000 worth of putty a year to keep the window panes in order.

—There are no sheep in Japan, and wool is not used as clothing, silk and cotton being the staples. There are no pigs—pork is an unknown article of diet, and lard is not used in cooking. Neither are there any goats, or mules, or donkeys.

—The largest kite ever made in England was one owned by Mr. George Pocock, of Bristol, grandfather of W. G. Grace, for the purpose of drawing a carriage along the roads. It was 12 feet by 35 feet, and proved the feasibility of such a mode of conveyance.

—India is a nation of pawnshops, according to Gen. Booth. The people think the cleverest man is he who devises the largest number of ways by which to borrow money. They put in pledge their lands, oxen, jewelry, themselves, their children and their grandchildren, and cases have even been known where a father to obtain money to defray the expenses of his daughter's wedding, has pledged as collateral the first child to be born of the union.

INSECTS ON MT. WASHINGTON.

Nine Hundred Species at the Height of Over a Mile.

The list of insects found in the Alpine region of Mount Washington contains names of more than 900 species of insects captured on the mountain, all taken from 5,500 feet altitude. Mrs. Slosson has been twice to the summit this season, spending two weeks here early in July and nine days in August. She has captured many additional species, perhaps 100 in all. These represent all the different orders of insects: Lepidoptera (butterflies and moths), coleoptera (beetles), hymenoptera (bees, wasps, ants, etc.), diptera (flies), neuroptera (dragon flies), hemiptera (bugs), and arachnida (spiders and mites). Some of them have been named for the mountains on which they were found, others for their discoverer. Thus, a large fly is "Daguerri Washingtoniae," and an ichneumon is "Meniscus Slossonae." Others bear as a specific name "Alpinum," "Montanum," or "Borealis," to suggest their cold mountainous birthplace.

Some of the most common and homely kinds of creatures are of interest to the naturalist. A large red mite, related to what is popularly known as the "red spider" of house plants, is very common on this summit. But it was never noticed or described until Mrs. Slosson found it three years ago and sent it to a specialist learned in such matters. He found it was a new species, though nearly related to certain mites found upon the Alps and other European mountains.

But one species of "daddy longlegs" has been found upon the summit. This was discovered by Mrs. Slosson two years ago and named by a specialist "Montanum." It is very common, running over the rocks and on the ground, but had somehow escaped the notice of entomologists until Mrs. Slosson's discovery. Spiders are numerous, as every stone when turned over discloses beetles and other insects, while on warm, still days the air is filled with gauzy wings and gaily colored slender bodies, hovering, soaring and fluttering about.

The contributions which Mrs. Slosson is making to the science of entomology by her investigations will be most highly appreciated by experts and students. But it is also most interesting to the general public to gain additional information as to the peculiar character of this high region. Its insect and vegetable and floral life, so entirely different from that of any other spot in New England, affords the most prolific subject for study.—Abate the Clouds.

Li Hung Chang and a Sewing Machine.
While in London Li Hung Chang visited a sewing machine works, where he found much to interest him. The manager of the works was closely questioned regarding the working of the machine, the quality of the thread used, and even the kind of oil for lubrication. It was not enough for Li Hung Chang to see the machine in operation; he had to work it himself. He passed a piece of white linen through the machine and stitched it with great care and marvelous neatness. He asked the price of the machine and sought after more detail. Was the machine covered when not in use? Yes. Some specimens of fancy work were shown—a figure of a royal Highlander worked in thread, and a lovely specimen of work in the form of a peacock's tail in all its wondrous color. His excellency Li betrayed deep interest in the peacock's tail, but even that could not lure him from the sewing machine. He sat down, and whiffing a cigarette, worked the treadles with amazing energy. He expressed himself anxious to purchase a machine, but it was explained that the firm would rather present him with one. After some pressure he consented to accept the gift, and it was arranged to send the machine to Shanghai. A machine is also to be specially constructed and forwarded to the empress of China.—London Chronicle.

TRUTH

must be told in the public interest, and the truth about carpets is that our stock of floor coverings generally is a veritable fairyland of new, pleasing, and attractive novelties. The floor is too much in evidence to be dismissed without thought, too much under foot for the quality of its covering to be disregarded. Study comfort, convenience and economy by looking over our candidates for the floor. The election will be ours beyond question.

SPEAKERS FOR RALLY DAY.
Congressman Ross, of Chicago, and Mrs.
Worthington to Address the Voters.

Preparations for the great rally Satur-
day, October 31, go right along steadily.
The outlook is splendid for a monster
crowd in Decatur that evening. Deliga-
tions from Peoria, Lincoln, Springfield,
Taylorville, Mt. Pleasant and many other
towns are to be in the great torchlight
parade.

The Speakers.
The committee on speakers have suc-
ceeded after considerable effort in secur-
ing Congressman George E. Ross, of the
Seventh district, Chicago, and Mrs. Fan-
nie B. Worthington, the eloquent lady or-
ator of Evanston, to address the multi-
tude that will be in Decatur. Mr. Ross
has been doing valiant service for the Re-
publican cause throughout the campaign,
and Mrs. Worthington who has been
booked for many addresses by the Nation-
al Committee, has also been in the thick-
est of the political battle. She spoke to
an enthusiastic audience at Bloomington
Tuesday night, and was in Decatur with
Senator Cullom a few years ago, speaking
at the Tabernacle.

DON'T GET NERVOUS.

Republicans Are Not in the Habit of In-
terfering With Free Speech.

The Decatur Review seems to be look-
ing for trouble. First it was the interfer-
ence with the Bryan meeting as a trade
boomer and now it fears he will be inter-
fered with as a free silver, Popocrat,
boomer, and it speaks of its young men,
who are evidently long on wind and short
on discretion, suggesting hickory clubs and
a free silver wedge after the fashion of
foot ballists to use on sound money men.

Now those young men should be
more careful. They might frighten some
people and thus prevent them from at-
tending the Bryan meeting and injure
the trade of the town thereby which lies
so near the heart of the Review. They
ought to allow everybody to see Bryan
who wants to and while the Republican
cannot speak for every individual it can
assure the Popocrat-hickory-club-conting-
ent that the sound money people will
make no preconcerted arrangement to go
to hear Bryan in a body for the purpose
of interrupting him and there will be no
more interruptions from that quarter in
Decatur than at other points visited by
Bryan. Republicans and sound money
men should treat Mr. Bryan courteously
and no doubt they will in spite of the in-
discretion of the Review which are well
calculated to engender bitterness.
